

## **Journal Scope**

Digest Journal of Nanomaterials and Biostructures (DJNB) appears with four issues per year and is open to the reviews, papers, short communications and breaking news inserted as Short Notes, in the field of nano-materials, nano-structures, in the field of biostructures, biomaterials and composite bio-anorganic nanomaterials as well as catalysts and biocatalysts.

Cross-fertilization of both domains of the condensed matter field (anorganic and organic) is one of the most important purposes of this Journal. Papers on the applications of nanomaterials, biomaterials in medicine are accepted.

In starting the DJNB as an Electronic Journal, we will make every effort to publish new research results in an expedient fashion taking a maximum of two months from the date of submission to make a decision.

Submissions will undergo a set review process. Submissions with a high impact in the nano and bio fields will be given a faster review process.

A publication tax of 300 EURO (370 USD) will be perceived after the approval of the paper for publication. Publication fee covers the review process, technical processing and free access to the online edition. The payment document will be sent together with the copyright signed by the corresponding author.
