

## **Instructions for authors**

The Managing Editors will send every manuscript to a minimum of two referees for a critical examination. The members of the Editorial Board may serve as reviewers. In this case only one reviewer's report is necessary.

The reports of the referees and the decision of the editors regarding the publication will be sent to the corresponding authors.

The manuscript accepted for publication will be published in the current issue of Journal of Optoelectronic and Biomedical Materials after the acceptance date.

The editor can reject a paper without review for several reasons: subject of the paper is not within the scope of the journal; the article is not complete (missing text, figures, tables, references, etc.); the paper is incomprehensible (punctuation and grammar mistakes, bad and low resolution figures, etc.)

A publication tax of 60 EURO will be perceived after the approval of the paper for publication. Publication fee covers the review process, technical processing and free access to the online edition. The payment document will be sent together with the copyright signed by the corresponding author.

All rights are reserved by JOBM. The publication, reproduction or dissemination of the published paper is permitted only by written consent of one of the Managing Editors.
